

## State and Local Tax (SALT) Support

Your clients multi-state activities may produce unknown liabilities or incentive opportunities. The BKD SALT team based in Missouri, Indiana and Texas and covering all 50 states are available to assist you and your clients with issues related to:

- Sales and Use Taxes – including reverse audits for refunds, structuring support, audit assistance and compliance assistance.
- Income and Franchise Taxes – including Nexus studies, audit assistance and consulting related to entity selection, apportionment and managed compliance programs.
- Property Taxes – including challenging valuations, identifying exemptions or abatements and seeking refunds.
- Location Based Credits and Incentives – INPACT members have access to our proprietary location screening software which identifies addresses located in federal, state or local zones around the country associated with various location based tax incentives.

Through your membership in INPACT Americas, you receive:

- A turnkey orientation that includes a presentation for your staff outlining these services and current issues related to SALT.
- 25% to 35% (depending on project size) of the professional fees resulting from services performed for your clients allocated to your firm under our lucrative fee sharing arrangement with INPACT Americas
- Access to marketing resources that include private label brochures and sales support

Contact Jason Jobgen to discuss the INPACT / BKD alliance for SALT services.
